

BANELE INNOCENT MONAMUDI

IT Support Specialist

Brakpan, Gauteng, South Africa (Open to Remote) | 063 554 5406 | monamudi.banele9@gmail.com | [linkedin.com/in/banelemonamudi-101493371](https://www.linkedin.com/in/banelemonamudi-101493371) | baneleinnocent.github.io/InnocentMona

PROFESSIONAL SUMMARY

Proactive and customer-focused IT Support Specialist with 2+ years of hands-on experience providing first-line technical support for hardware, software, and network-related issues in a fast-paced institutional environment. Skilled in diagnosing and resolving issues across Windows operating systems, Microsoft 365 applications, Active Directory, and LAN/Wi-Fi connectivity. Trained through Cisco Networking Academy with a solid foundation in networking principles (TCP/IP, DNS, VPN) and cybersecurity tools. Adept at explaining complex technical issues to non-technical users, maintaining detailed incident documentation, and escalating unresolved issues efficiently. Eager to deliver reliable remote IT support to international clients and teams.

CORE COMPETENCIES

- First-Line Technical Support (Remote & On-Site)
- Hardware & Software Troubleshooting
- Windows 10/11 & Microsoft 365 Administration
- Active Directory & User Access Management
- IT Ticketing & Incident Documentation
- Network Troubleshooting (TCP/IP, DNS, VPN, LAN/Wi-Fi)
- Endpoint Deployment, Patching & Maintenance
- Remote Desktop Support Tools
- Software Installation & Compatibility Management
- Customer Service & Non-Technical User Communication

PROFESSIONAL EXPERIENCE

Information Technology Technician

January 2024 – August 2025

Ekurhuleni East TVET College — Ekurhuleni, Gauteng

Technical Support & Troubleshooting

- Served as the first point of contact for hardware, software, and network-related issues across multiple campus departments, resolving the majority of incidents at first-line level.
- Diagnosed and resolved issues on desktops, laptops, printers, and peripherals, including operating system faults, application errors, and connectivity failures.
- Troubleshot Microsoft 365 applications (Outlook, Teams, OneDrive, SharePoint) and guided users through solutions in clear, non-technical language.
- Performed remote and on-site support, assisting users via phone, email, and direct desk-side assistance.

System Maintenance & Software Deployment

- Deployed and configured desktop endpoints; performed OS installations (Windows 10/11), software updates, and patch management across the user base.
- Supported installation and compatibility testing of new applications, ensuring smooth rollouts with minimal disruption.
- Verified system backups and supported disaster recovery procedures to maintain data integrity.
- Coordinated structured cabling, infrastructure rollouts, and system upgrades alongside senior staff and external service providers.

Network Management & User Administration

- Administered Active Directory user accounts, permissions, profiles, and password resets for staff and students.
- Troubleshot LAN and Wi-Fi connectivity issues, assisted with switch configuration, and escalated complex network faults appropriately.
- Applied foundational knowledge of TCP/IP, DNS, and VPN to support network connectivity and remote access troubleshooting.

Documentation & Incident Reporting

- Logged and tracked all incidents with clear, structured documentation to support issue resolution and recurring problem analysis.
- Maintained IT asset registers, system configuration records, and technical documentation in line with institutional standards.
- Identified and escalated recurring issues to senior IT staff, contributing to improved system efficiency and reduced repeat incidents.

EDUCATION

NCV Information Technology & Computer Science – NQF Level 4 2022 – 2024
Ekurhuleni East TVET College

Grade 12 (Matric)
TANDI High School

CERTIFICATIONS

- Cisco Networking Academy — CCNA: Introduction to Networks | 2024
- Cisco Networking Academy — IT Essentials: Hardware & Software | 2023
- CompTIA A+ — In Progress

TECHNICAL SKILLS

Operating Systems: Windows 10/11, Basic Windows Server; exposure to Linux fundamentals
Productivity & Cloud: Microsoft 365 (Outlook, Teams, SharePoint, OneDrive); Azure Fundamentals
Networking: TCP/IP, DNS, VPN, LAN/WAN, Wi-Fi Configuration, Network Troubleshooting
Support Tools: Remote Desktop Tools, IT Ticketing Systems, Active Directory, IT Asset Management
Cybersecurity: Wireshark, Nmap, Cisco Packet Tracer
